

## Practice - all year groups

- [Corbett Maths](#) - [topic worksheets](#), [textbook exercises](#), and mixed revision with the [5-a-days](#). The man is a legend.
- [Dr Frost Maths](#) - completely free to use, and students benefit from an infinite amount of practice with questions that regenerate
- [MathsBot](#) - infinitely generated practice with answers, and no registration needed. Try the [GCSE resources](#) and the [question generators](#)
- [Maths4Everyone](#) - an incredible collection of practice questions, complete with full worked solutions. The [review sheets](#) and [GCSE questions by topic](#) are particularly useful.
- [Sparx education](#) - they have kindly made their virtual classroom free, so teachers can set tasks which are automatically marked and students can access videos.
- [Mathster](#) - another company who have made their platform free, with videos and an infinite number of practice questions that are automatically marked. Once the [1 month free trial](#) is over, you can email Mathster to get it extended as long as needed
- Year 7: <https://diagnosticquestions.com/Quizzes/MathematicsMasteryYear7>

## Practice - GCSE only

- [On Maths](#) - online GCSE papers, type in your answer, and it marks it for you!
- [Mr Barton Maths](#) - my [GCSE takeaway](#) resources come with questions and worked solutions
- [Julia Smith's GCSE maths padlet](#) - brilliant revision advice and links
- [Mixed-topic Revision Quizzes for SATs and GCSE](#)
- [Eedi GCSE topic quizzes](#)

## Videos and tutorials

If you get stuck during your practice, then the following might help:

- [Corbett Maths](#) - clear, concise videos with comprehensive coverage of the entire Key Stage 3 and 4 maths curriculum
- [Seneca](#) - free online tutorials for age groups. All the maths content is [here](#).
- [Khan Academy](#) - an abundance of videos from the US for all ages groups. All the maths content is [here](#).
